For Hydration

2 comments

- the comments are only on about half the methods
- not extremely informative
- there's a commented out block of code in `LinkedList` and `Deque`

4 Style

- good variable names & spacing

3 Robustness

- Redundant methods ex. `peek()` and `peekFirst()`
- You didn't have to use all the methods in the API

2 Readme

- missing development plan & to do list
- But the method explanations are very detailed - but there's a lot
